

DEWALT®

A construction worker is shown in a high-angle shot, working on a concrete structure. He is wearing a yellow hard hat, safety glasses, a high-visibility yellow vest over a grey t-shirt, black gloves, and brown work boots. He is using a yellow and black DeWalt reciprocating saw to cut through a piece of wood. The background shows a complex network of steel rebar and concrete forms, indicating a construction site. The overall scene is set against a bright yellow background.

PROTECTIVE GLOVES

EN388 STANDARD

EN388:2016

PROTECTIVE GLOVES AGAINST MECHANICAL RISKS

EN388 ratings are also noted on Radians hand protection. EN388 includes more specific information about the resistance to particular types of hazards you may encounter on the job. There are five numbers listed which indicate the level of resistance to puncture, tearing, blade cut and abrasion. Look at the diagram to the left to reference which number corresponds to which hazard.

EN388

4 X 4 4 C X → Impact Test

TDM-100 Test
 Puncture Resistance
 Tear Resistance
 Blade Cut Resistance
 Abrasion Resistance

Level	1	2	3	4	5
